

## HELL'S GETTING HOTTER WITH YOU: AVALANCHE IGNITES THE ROCK SCENE WITH THEIR EXPLOSIVE NEW SINGLE

BY RAS BANAMUNGU

Prepare to be rocked to the core as Australian hard rock powerhouse Avalanche sets the music world ablaze with their latest release, "Hell's Getting Hotter With You." Bursting onto the scene with their signature thunderous guitars, paint-stripping vocals, and heart-racing drums, Avalanche delivers a no-holds-barred anthem that leaves listeners exhilarated and craving more.

Described by the band as a wild ride through the old west, fiery relationships, and daring escapades, "Hell's Getting Hotter With You" explores the allure of toxic relationships reminiscent of Bonnie and Clyde. It's a journey through love and chaos, where the thrill lies in being dragged to hell and back.

Recorded live in just three takes with Grammy-nominated and ARIA Award-winning producer Steve James, known for his work with iconic bands like Airbourne and Cold Chisel, this track captures the raw energy and intensity of Avalanche's live performances.

Since their inception in 2018, Avalanche has been on an unstoppable ascent. From humble beginnings in a steel factory, they've risen to support renowned acts like Buckcherry and Fozzy, and have claimed victory in Australia's largest live original band competition, Passport To Airlie. Now, with a management deal with Big Apachee and joining forces with Premier Artists, Avalanche is poised to conquer the international stage.

With airplay on major radio stations like Triple M and Kerrang!, as well as TV appearances on channels such as 7mate, Avalanche is making waves both at home and abroad. Their upcoming tour of Japan in March 2024 marks the next chapter in their meteoric rise, solidifying their status as a global force in rock music.

Avalanche is not just a band; they're a seismic event, proudly representing the best of Aussie Rock. "Hell's Getting Hotter With You" is just the beginning of what promises to be an electrifying journey for both the band and their fans.
